Greg, I am also going to need to know what the cost will be for the boat travel from Levelock to Igiugig and from Igiugig to Kokhanok. If you tell me the total cost for EPA I will divide it among the three of us.

Depending on the cost, we may have to pay with a check . . . unless you take plastic? ; )

Thanks! Tami

Hi Tami, Sounds good, Levelock would like to have a Tribal consultation and the meeting should be at the community building, and I will have to check on the water level at the flats when it gets closer to the date to be sure that we're going by boat. Thanks Greg

Greg Andrew, Jr.

Good Afternoon,

I wanted to touch bases with all of you, and I apologize that I am doing this via email, but I hear the birds have arrived and people are out hunting. Some of you are out traveling. So, I wanted to make sure I connected.

I am on my way down to Oregon for the Tribal Leaders Summit, so maybe I will see you there and we can talk in person.

Anyhow, EPA is planning for two weeks of community visits in June. I want to talk with you about the second week.

We would like to get to the following communities: Levelock, Igiugig, Kokhanok, and Pedro Bay.

Depending on the weather, and the water level, ; ) we will be arrive in Levelok on Monday June 11th, then our trusted driver, Greg Andrew will take us by boat to Igiugig and on to Kokhanok. From there I believe we will need to fly over to Pedro Bay and I am still working that out.

The very rough schedule is as follows:

Monday 6/11: Levelock

Tuesday 6/12: Igiugig

Wednesday 6/13: Kokhanok

Thursday 6/14: Pedro Bay (I am still working this out - if we can get in by Thursday - if not may be a Friday)

What I would like to hear from you is the following:

- 1) Does your tribal government wish to have a tribal consultation meeting with EPA while we are there?
- 2) Where should we hold the community meeting? I will need a point of contact to work with in order to reserve the room, etc.

I believe all of your communities have requested a meeting, and this is the best week we have to come to your community. The draft watershed assessment will have been out for about a month and so it will be a great time to come and discuss the assessment, get input, hold tribal consultation meetings (if your tribal government wants one), and to answer any questions.

Who from EPA will be traveling?

Rick Parkin, Senior Management Lead on the Assessment & Deputy Director for the Office of Ecosystems, Tribal and Public Affairs

Phil North, Aquatic Ecologist & Technical Lead on the Assessment

Tami Fordham, Alaska Resource Extraction Tribal Policy Advisor

If you have any questions or concerns please let me know.

I look forward to hearing back from you regarding your tribal government's wishes and what works best for your community. If there is another leader in your community that you would like me to talk with regarding this upcoming visit please let me know.

We are really looking forward to this trip.

Sincerely!

Tami
